Sandy and I were fast friends at Weston collegiate .she changed schools and we lost touch til 40 years later. When we connected again it did not feel there was any gap in time. I admire the courage and strength she had to deal with life with a family first conviction. Sending my deepest condolences to her family and wishing God's peace for them.

Growing up with Tracy, I remember Sandra being part of many school events. She always had a positive presence that I am sure will be missed by everyone. My deepest condolences.
