

ANGELA MARLEY

Angela was a cherished childhood friend. We kept in touch throughout the years with phone calls and her airmails with a few visits in between. Del & I will miss our conversations with her which were always informative and interesting. I will think of her when I watch the Blue Jays.

Please accept my deepest condolences on the loss of Angela. I had the pleasure of working with Angela at Ontario Shores for a number of years. She was the epitome of professionalism in all aspects of care she provided. Heaven has gained an angel. Rest in peace Angela. Sincerely, Donna McAleer Smith

Dear Angie, I know that you are in a better place, with your family. A place with no pain and and no limitations. Thank you for all your kindness to me through the years. All the understanding and all the friendship. We had lots of laughs in Guelph - in residence and on Speedvale and in Toronto on Keewatin. Take my love with you in this next phase of your life. Now it's time for someone to take care of you. Love Krisztina

So sorry for the loss of another Marley family member. I will always remember Angela as the young student at EDHS who came up with the lyrics for the school song. It seems like so long ago, but there are so many good memories. Rest in a well deserved peace Angela.

To the family of Angela Marley: I had the immense pleasure of knowing Angela at North York Seniors Centre since she joined in 2015 (I work in the program department). I also supported the Members Council for 8 of the 10 years she was our Accessibility Representative. Angela always considered every possible angle of a situation and would always press for what would benefit the seniors in our community most. I feel privileged to have had personal conversations with Angela as well. I really enjoyed talking about large families with her, seeing her face light up at fond memories. Please accept my sincere condolences at your loss. I will hold my memories with Angela close to my heart.

Sending sincere condolences to all the family. Angela and her Mother were my 4H leaders. I have many great memories of the things they taught - sewing Chief among them. Angela had patience and a great sense of humour. Sincerely Theresa

My sincere condolences to all Angela's loved ones. I fondly remember Angela from as far back as elementary school at St. Patrick's in Phelpston. Though we lost touch over the years I am not surprised at all by her accomplishments during her lifetime. She was always determined, from a young age, that any disability she had was not going to hold her back and obviously it probably made her more determined to make a difference in the world. I am sure you take solace in knowing that hers was a life well and fully lived.

My deepest sympathy to Angela's family & friends. I met Angela in Winnipeg in the 70's. We shared accommodation for a year or so. I recall meeting Bill & his kids while we lived together. My thoughts are with you all. Angela was truly inspiring to me in how she lived her life. She never let things stop her. I always think of her resilience, her patience & her gently humor. We will miss her. Rest in peace my friend. Mary Lou
